

Whisper XT

Join the quiet revolution in marine propulsion.

Stop pumping dollars into the fuel tank.

Operate your boat for just pennies per charge!

Welcome to the quiet revolution in electric marine propulsion. Whether you prefer a peaceful cruise to a special gunkholing spot across an inland lake, or a purposeful dash to your favorite intra-coastal waterfront destination, EPIC's electric outboard motors can get you there for pennies, not dollars, a day. Clean and quiet, the motor is compliant with the most rigorous environmental standards. There's no brush noise, so it's quiet enough to encourage relaxed conversation with family and friends or sneak up on those fish!

Matched with the right batteries and chargers you can securely take extended cruises. The new EPIC Whisper XT will easily power pontoon boats, small fishing vessels, sailboats, and other watercraft. It's ideal for inland waterways and lakes, even when the wind kicks up, and it's tough enough to stand up to salt water, too. The Whisper XT; Join the quiet revolution today!

Standard Features:

- Remote throttle or twist tiller control models
- Operates from 24 to 72 volts without changes to the motor
- Adjustable shaft mount for long and short applications
- Saltwater ready
- Digital panel meter reads volts and amps
- Slotless, brushless D.C. motor
- Innovative winding technique maximizes power and efficiency
- Controller design has over-amperage protection
- Finned housing improves heat dissipation
- Propeller nozzle focuses thrust and protects blades.
- Two year warranty and entirely made in the USA

- Weighs 71 lbs
- Neodymium boron iron rare earth magnets have an energy product of about 10 times the conventional ferrite magnets
- Efficiency of more than 90% compared to conventional D.C. motors at 65-70%, and no power fall-off during use
- Finned housing optimizes heat dissipation
- Slotless, brushless D.C. motor means no brushes or commutators to wear out
- Starts instantly every time!
- Built to withstand the daily rigors of commercial use
- Quiet reliable, easy operation with high performance and satisfaction for years to come
- Variable speed control, down to 1 rpm
- Adjustable shaft for long and short applications
- Remote or tiller application available
- No maintenance or winterization hassle

Whisper XT performance data:

- 24 ft pontoon boat @ 6.5 mph
- 26 ft 4 ton sailboat @ 7.5 mph
- 16 ft jon boat @ 12.7 mph on plane
- 16 ft power cat @ 7 mph
- 10 ft RIB dingy @ 6.8 mph

Whisper XT MSRP \$4,495

*Chargers, batteries and installation services are available at additional cost, call **Epower Marine** today for a quote!*
